

CROMARTY GREEN HYDROLYSER

FIGURE 2.4
 Zone of Theoretical Visibility - Bare Ground

KEY

- Site Boundary (Main site area and access track only)
- Distance from Site Boundary (1, 3, 5km)
- Viewpoints
- Dornoch Firth National Scenic Area
- Moray Firth Tourist Route

Zone of Theoretical Visibility

- Hydrogen Production Facility may be visible

FIGURE DATA:
 This figure has been based on the following data:

Layout file: D003-Obs_T5-Building_Heights
 Terrain data: 5
 Viewer's eye height: 2m above ground level
 Calculation grid size: 5m

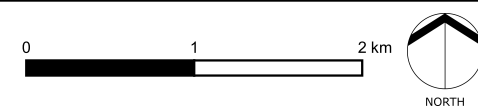

NOTES:
 This drawing is based upon computer generated Zone of Theoretical Visibility (ZTV) studies produced using the Viewshed routine in the Visibility Analysis plugin for QGIS.

The areas shown are the maximum theoretical visibility, taking topography into account.

This visibility map is based on a 'bare earth' model of the landform and does not show any effects of screening from obstacles such as buildings and vegetation.

The ZTV includes an adjustment that allows for Earth's curvature and light refraction. It is based on a derived DTM and has a 5m² resolution.

Projected Coordinate System: British National Grid
